PERUTUSAN MESSAGE

Ketua Pengarah Perhutanan Semenanjung Malaysia

*Director-General of Forestry
Peninsular Malaysia*

Bismillahirrahmanirrahim,

Segala puji bagi Allah, Tuhan Semesta Alam, Selawat dan salam ke atas junjungan mulia Nabi Muhammad S.A.W.,

Praise be to Allah, the Almighty God, Peace and Blessings be upon the most beloved Prophet Muhammad P.B.U.H.,

Salam 1Malaysia, Salam 1NRE dan Salam 1JPSM.

Greetings 1Malaysia, Greetings 1NRE and Greetings 1JPSM.

Tahun 2015 merupakan tahun akhir tempoh Rancangan Malaysia Kesepuluh (RMKe-10:2011-2015). Di akhir tempoh RMKe-10 tersebut, sejumlah RM70.2 juta atau 99.5% dari peruntukan pembangunan di peringkat Persekutuan telah berjaya dibelanjakan oleh Ibu Pejabat Jabatan Perhutanan Semenanjung Malaysia (IPJPSM) untuk melaksanakan sebanyak lima (5) projek utama pembangunan hutan iaitu (i) Program Penanaman Pokok Bakau dan Spesies-Spesies yang Sesuai di Persisiran Pantai Negara Fasa 2; (ii) Menaiktaraf Bangunan Lama dan Infrastruktur JPSM; (iii) Pembangunan dan Pemeliharaan Perhutanan JPSM; (iv) Menaiktaraf Jalan Hutan dan Jalan Ladang Hutan; dan (v) Projek Central Forest Spine. Projek-projek tersebut dilaksanakan bagi membantu usaha-usaha merealisasikan pencapaian misi utama Jabatan Perhutanan Semenanjung Malaysia (JPSM) di bawah pelaksanaan amalan Pengurusan Hutan Secara Berkekalan (PHSB). Dalam tahun 2015 sahaja, sejumlah RM24.3 juta atau 99.8% dari peruntukan pembangunan di peringkat Persekutuan telah dibelanjakan untuk melaksanakan projek-projek pembangunan hutan tersebut. Tahniah dan syabas saya ucapkan ke atas prestasi pencapaian cemerlang ini dan berharap agar prestasi seumpama ini akan dapat diteruskan dalam pelaksanaan projek-projek pembangunan hutan di bawah tempoh Rancangan Malaysia Kesebelas (RMKe-11:2016-2020).

The year 2015 coincides with the final year of the 10th Malaysia Plan (10th MP:2011-2015). At the end of the 10th Malaysia Plan, a total of RM70.2 million or 99.5% of the Federal's development budget was successfully spent by the Forestry Department Peninsular Malaysia Headquarters (FDPMHq) to implement five (5) key forest development projects, namely (i) Planting Programme of Mangroves and Other Suitable Tree Species Along the National Coastlines Phase 2; (ii) Upgrading of FDPM's Old Buildings and Infrastructures; (iii) Forestry Development and Conservation of FDPM; (iv) Upgrading of Forest Roads and Forest Plantation Roads; and (v) Central Forest Spine Project. These projects were implemented to assist FDPM in its efforts to materialise her main mission under the implementation of Sustainable Forest Management (SFM). In 2015, a total of RM24.3 million representing 99.8% of the development budget allocated to the Federal level has been spent for implementing these development projects. I congratulate and hail these outstanding achievements and hope similar achievements will be extended during the implementation of forest development projects under the 11th Malaysia Plan (11th MP:2016-2020) period.

Dari segi aktiviti pengurusan dan pembangunan khazanah hutan, terutama sekali di dalam kawasan Hutan Simpanan Kekal (HSK), JPSM terus komited secara berterusan sepanjang tahun 2015 kepada pelaksanaan amalan PHSB dengan tumpuan pendekatan yang lebih holistik “Hutan Bukan Untuk Pengeluaran Kayu-Kayan Semata-mata”. Di samping itu, aktiviti penguatkuasaan hutan terus dipertingkatkan dengan mengambil langkah proaktif dengan memantapkan operasi penguatkuasaan undang-undang hutan yang lebih ketat terutama sekali di kawasan-kawasan HSK yang berisiko tinggi kepada pencerobohan hutan melalui pengukuhan Standard Operating Procedure (SOP) dan penggunaan teknologi moden ICT. Ini termasuklah pengukuhan strategi risikan, pembangunan sains forensik perhutanan, pemantauan melalui sistem aplikasi Forest Monitoring Using Remote Sensing (FMRS) dengan imej satelit yang lebih terkini, pemantau udara melalui penggunaan aplikasi *hyper-spectral* dan Unmanned Aerial Vehicle (UAV)-Drone serta kekerapan pasukan rondaan di lapangan. Dalam hal ini, satu pasukan bertindak khas yang dikenali sebagai Pasukan Elit Penguatkuasaan JPSM atau JPSM Elite Team (JET) telah dilancarkan pada 17 September 2015 dengan keanggotaan seramai dua puluh lima (25) orang terdiri dari pelbagai peringkat pegawai dan kakitangan IPJPSM dan Jabatan Perhutanan Negeri (JPN). JET berjaya melaksanakan operasi penguatkuasaan secara bersepadu dan merentasi sempadan dengan bantuan bersepadu agensi-agensi penguatkuasaan yang lain.

Dalam mengarusperdanakan tatacara pengurusan dan peraturan berkaitan pelaksanaan amalan PHSB, JPSM berjaya menggubal dan mengeluarkan sebanyak sepuluh (10) Pekeliling Ketua Pengarah Perhutanan Semenanjung Malaysia (KPPSM) sepanjang tahun 2015. Tujuh (7) daripada sepuluh (10) Pekeliling KPPSM tersebut adalah bersangkutan dengan aspek-aspek pengukuhan penubuhan dan pengurusan kawasan HSK di Semenanjung Malaysia, iaitu (i) Kawasan Hutan Tadahan Air; (ii) Kawasan Hutan Bagi Maksud-Maksud Persekutuan (HMP); (iii) Kawasan Hutan Tebus-Guna Tanah; (iv) Kawasan Hutan Perlindungan Tanah; (v) Kawasan Hutan Pelajaran; (vi) Kawasan Hutan Kawalan Banjir; dan (vii) Kawasan Hutan Yang Mempunyai Nilai Pemeliharaan Yang Tinggi (HCVF). Tiga (3) Pekeliling KPPSM tersebut pula adalah bersangkutan dengan aspek-aspek pengukuhan aktiviti perhutanan, iaitu (viii) Penyediaan Papan Tanda dan Plet Sempadan Hutan Simpanan Kekal di Semenanjung Malaysia; (ix) Sukatan Peperiksaan Perkhidmatan Subjek Jabatan; dan (x) Pemantauan Kualiti Air Sungai Dalam Hutan Simpanan Kekal di Semenanjung Malaysia.

In terms of forest management and development activities, especially in the Permanent Reserved Forest (PRF) areas, FDPM remains fully committed in 2015 to the implementation of SFM practices with concern more to holistic approach of “Forest Beyond Timbers”. In addition, forest enforcement activities are continued and enhanced by embarking proactive measures with stringent forest laws enforcement especially in PRF areas which are vulnerable to encroachment by the strengthening of Standard Operating Procedure (SOP) and the application of modern ICT. This strategy also includes the strengthening of intelligence, the development of forestry forensic, Forest Monitoring Using Remote Sensing (FMRS) with more recent satellite images, aerial surveillance through the use of hyper-spectral applications and Unmanned Aerial Vehicles (UAV)–Drone as well as frequent field patrolling by the teams. In this regard, a special task force named Pasukan Elit Penguatkuasaan JPSM or JPSM Elite Enforcement Team (JET) was launched on 17 September 2015 involving 25 officers from various levels at FDPMHQ and the State Forestry Department (SFD). JET has successfully conducted an integrated enforcement operations with wider involvement of other enforcement agencies.

In order to mainstreaming the management procedures and regulations relevant to the implementation of SFM, FDPM has successfully formulated and issued a total of ten (10) Director-General of Forestry Peninsular Malaysia’s (DGFP’s) Circulars in 2015. Seven (7) of these ten (10) DGFP’s Circulars are relevant to the aspects of strengthening the establishment and management of PRF areas in Peninsular Malaysia, namely (i) Forest Area for Water Catchment ; (ii) Forest Area for Federal Purposes ; (iii) Forest Area for Soil Reclamation; (iv) Forest Area for Soil Protection ; (v) Forest Area for Education; (vi) Forest Area for Flood Control ; and (vii) Forest Area for High Conservation Value. The other three (3) DGFP’s Circulars are relevant to the strengthening of forestry activities, namely, (viii) The Preparation of Signages and Plates for Boundary of Permanent Reserved Forest areas in Peninsular Malaysia; (ix) The Examination Syllabus for Forestry Subjects; and (x) Monitoring of River Water Quality in the Permanent Reserved Forest areas in Peninsular Malaysia.

Tahun 2015 merupakan juga tahun pengukuhan aktiviti-aktiviti penghijauan kawasan hutan terosot di Semenanjung Malaysia. Contohnya, dalam usaha menghijaukan kembali Cameron Highlands yang dilanda banjir dan tanah runtuh menjelang akhir tahun 2014, JPSM telah berjaya melaksanakan sembilan (9) siri Program Penghijauan Cameron Highlands dengan penanaman sejumlah 15,700 pokok yang meliputi keluasan 20.83 hektar sepanjang tahun 2015. Sehingga kini, jumlah keseluruhan pokok yang telah ditanam adalah sejumlah 25,207 pokok di kawasan HSK seluas 32.57 hektar dengan perbelanjaan sejumlah RM600,000 di bawah peruntukan Persekutuan. Tidak ketinggalan, JPSM menyertai projek pengukuhan “1 NRE Command Center (1NCC)” dan pemuliharaan hutan terosot di Cameron Highlands, Pahang juga turut dilancarkan oleh Kementerian Sumber Asli dan Alam Sekitar (NRE) Malaysia. Dalam program penghijauan ini, pelbagai spesies endemik Cameron Highlands seperti Damar minyak (*Agathis borneensis*), Podo kebal musang gunung (*Nageia walliiana*), Rhu bukit (*Gymnostoma sumathranum*), dan Meranti bukit (*Shorea platyclados*) telah ditanam secara program kerjasama bersepadu pihak agensi kerajaan, swasta dan badan-badan bukan kerajaan (NGOs). Program Penghijauan Cameron Highlands anjuran JPSM ini mendapat sokongan daripada pemimpin masyarakat, masyarakat setempat, masyarakat orang asli, pelajar sekolah, pekebun-pekebun sayur di Cameron Highlands serta NGOs. Aktiviti penghijauan ini disokong dengan usaha-usaha JPSM yang telah mensasarkan sejumlah 1.5 juta pokok stok bahan tanaman di bawah Program Pengeluaran Bahan Tanaman Bermutu (Quality Planting Stock) yang disediakan dan dikeluarkan oleh tapak semaian JPSM. Di samping itu, JPSM juga telah berjaya menanam sejumlah 3.5 juta pokok di Semenanjung Malaysia di bawah pelaksanaan aktiviti penanaman pokok-pokok sepanjang tahun 2015.

*2015 was also a year of strengthening the greening activities for degraded forest areas in Peninsular Malaysia. For example, in the pursuit to re-greening Cameron Highlands which was hit by floods and landslides in late 2014, FDPM has successfully embarked a total of nine (9) series of greening programmes for Cameron Highlands with the planting of 15,700 trees covering an area of 20.83 hectares throughout 2015. To date, a total of 25,207 trees have been planted covering an area of 32.57 hectares of PRF with RM600,000 spent under the Federal's allocation. Meanwhile, FDPM has also actively participated in the “1 NRE Command Center (1NCC)” project and involved in the conservation of degraded forest in Cameron Highlands, Pahang, launched by the Ministry of Natural Resources and Environment (NRE) Malaysia. In this greening programme, several endemic tree species in Cameron Highlands, namely Damar minyak (*Agathis borneensis*), Podo kebal musang gunung (*Nageia walliiana*), Rhu bukit (*Gymnostoma sumathranum*), and Meranti bukit (*Shorea platyclados*) have been planted under the integrated program involving various Government Agencies, Private Sectors and Non-Governmental Organisations (NGOs). This Greening Programme for Cameron Highlands organised by FDPM received immense support from several Community leaders, Local communities, indigenous people, school students, vegetable farmers as well as NGOs in Cameron Highlands. This greening activity is aggravated by FDPM's initiative to target a total of 1.5 million planting stocks under the existing Programme for the Production of Quality Planting Stock from FDPMS' nurseries. In addition, FDPM has also successfully planted a total of 3.5 million trees in Peninsular Malaysia under the implementation of trees planting activity throughout 2015.*

Pembangunan Koridor Ekologi Gerik, Perak merupakan inisiatif Projek Central Forest Spine (CFS) bertujuan untuk menyambungkan kawasan hutan yang terpisah yang memberi kesan terhadap pemeliharaan biodiversiti hutan Negara. Projek ini melibatkan semua agensi kerajaan di peringkat Persekutuan dan Negeri, institusi penyelidikan, universiti dan NGO. Dalam tahun 2015, satu unit Viaduct Koridor Ekologi CFS dengan kos berjumlah RM25.8 juta telah berjaya disiapkan sepenuhnya pada Julai 2015 sebagai projek perintis dan perasmiannya telah juga diadakan pada 22 September 2015 oleh Kebawah Duli Yang Maha Mulia Paduka Seri Sultan Perak. Viaduct tersebut menjadi penyambung kompleks Primary Linkages 2 antara Hutan Simpan Temengor dengan Hutan Simpan Belum. Pembinaan viaduct ini memberi impak positif terhadap pengurangan konflik manusia-hidupan liar di samping mampu menjadi daya tarikan baru dalam sektor ekopelancongan menerusi aktiviti pemerhatian kehidupan liar khususnya gajah di sepanjang lebuh-raya Gerik-Tanah Merah. Pada masa yang sama, Projek GEF-UNDP-GOM Improving Connectivity in the Central Forest Spine Landscape (IC-CFS:2014-2020) telah dilancarkan juga dalam tahun 2015 bertujuan untuk meningkatkan sumbangan projek CFS di Semenanjung Malaysia melalui tiga (3) komponen projek yang berkaitan dengan kajian biodiversiti dan penguatkuasaan undang-undang kehidupan liar dan hutan; peningkatan kapasiti dan pengurusan lanskap; dan kelestarian kewangan ini juga dilancarkan. Dengan itu, tiga (3) Jawatankuasa Teknikal Kerja (TWG), iaitu Biodiversity Intactness Index (BII) and Biological Studies yang diketuai oleh Institut Penyelidikan Perhutanan Malaysia (FRIM); Wildlife Conservation yang diketuai oleh Jabatan Perlindungan Hidupan Liar dan Taman Negara (PERHILITAN) dan Payment for Ecosystem Services (PES) and Sustainable Forest Management (SFM) yang diketuai oleh JPSM telah ditubuhkan.

Dalam menyediakan perkhidmatan hutan kepada masyarakat, sebanyak 112 buah Taman Eko Rimba dan tujuh (7) buah Hutan Taman Negeri telah diurus dan dibangunkan oleh Jabatan di Semenanjung Malaysia. Dalam konteks ini, peranan Jabatan dilihat amat penting dalam menyediakan serta mempromosi Taman Eko Rimba dan Hutan Taman Negeri supaya ianya dapat dinikmati, dimanfaatkan dan selamat dikunjungi. Ianya adalah selaras dengan perubahan nilai, corak gaya hidup dan kesedaran masyarakat demi menjaga kestabilan alam sekitar. Hasil daripada usaha ini, JPSM telah berjaya menarik lebih 5 juta pengunjung ke Taman Eko Rimba dan Hutan Taman Negeri sepanjang program Tahun Festival Malaysia (MyFEST) 2015.

The construction of the Gerik Ecological Corridor, Perak is an initiative under the Central Forest Spine (CFS) Project with the intention to connect fragmented forest areas which gave an impact to the conservation of the national biodiversity. This project involved all government agencies both at Federal and State levels, research institutions, universities and NGOs. In 2015, one CFS Ecological Corridor Viaduct has been successfully built and completed in July 2015 with cost amounting to RM25.8 million as a pilot project and has been officiated by His Majesty Paduka Seri Sultan Perak on 22 September 2015. This viaduct has successfully connected Primary Linkages 2 between Temenggor Forest Reserve and Belum Forest Reserve. The construction of this viaduct contributed a positive impact in the reduction of human-wildlife conflicts and as a new iconic ecotourism attraction for the observation of wildlifes, especially elephants along the Gerik-Tanah Merah Highway. At the same time, the GEF-UNDP-GOM Improving Connectivity in the Central Forest Spine Landscape (IC-CFS: 2014-2020) Project has also been launched in 2015 with intention to intensifying the contribution of CFS projects in Peninsular Malaysia through the adoption of these three (3) components, namely study on biodiversity and enforcement of wildlife and forest laws capacity building and landscape management; and sustainable financing. In this endeavour, three (3) Technical Working Groups (TWGs) have been established, namely the TWG for the Biodiversity Intactness Index (BII) and Biological Studies led by the Forest Research Institute Malaysia (FRIM); the TWG for the Wildlife Conservation led by the Department of Wildlife and National Parks (DWNP); and the TWG for the Payment for Ecosystem Services (PES) and Sustainable Forest Management (SFM) led by FDPM.

In providing forest services to the community, a total of 112 Forest Eco-Parks and seven (7) Forest State Parks in Peninsular Malaysia are managed and developed by the Department. In this context, the role of the Department is seen so crucial in providing and promoting Forest Eco-Parks and Forest State Parks so that it can be enjoyed, utilised and safe to visit. This is in line with value changes, lifestyles and community awareness towards maintaining environmental stability. As a result of these initiatives, FDPM has succeeded to attract over 5 million visitors to the Forest Eco-Parks and Forest State Parks during the Programme for Malaysia Year of Festivals (MyFEST) 2015.

Sejajar dengan usaha memperkasakan pembangunan modal insan, sejumlah 110 kursus telah dilaksanakan oleh JPSM manakala 34 program luar negara telah disertai oleh seramai 55 pegawai JPSM di sepanjang tahun 2015.

Di kesempatan ini, saya juga ingin merakamkan ucapan terima kasih dan syabas di atas pencapaian-pencapaian cemerlang yang lain JPSM di sepanjang tahun 2015, iaitu pengekalkan penarafan 5 bintang bagi laman web rasmi JPSM dalam Provider-Based Evaluation (ProBE) selama empat (4) tahun berturut-turut sejak tahun 2011, pengekalan prestasi empat (4) bintang dalam penarafan Indeks Akauntabiliti (AI) oleh Jabatan Audit Negara serta berjaya memperolehi pensijilan berdasarkan standard terbaru MS ISO/IEC 27001:2013 bagi Information Security Management System (ISMS) oleh pihak SIRIM QAS International Sdn. Bhd.

FDPM has also actively and aggressively participated in various fora at local, regional and international levels throughout 2015. Many officers from the Department are directly and indirectly involved amongst others these being members to the Malaysian Delegation of the 11th Session United Nations Forum on Forests (UNFF11), 11th Meeting of the ASEAN Experts Group on International Forest Policy Processes (AEG-IFPP), ASEAN Social Forestry Network (ASFN), XIV World Forestry Congress, and 22nd Meeting of the CITES Plants Committee. In addition, FDPM also participated as part of the Malaysian Delegation to the Special ASEAN Senior Officials (ASOF), 6th Session of the Governing Council of the ASEAN Forest Cooperation (AFoCo) & 5th Meeting of the Dialogue for the Establishment of the Asian Forest Cooperation Organisation (AFoCO), Expert Consultation Event on FREL/FRL Development in Asia Pacific, Consulting Meeting on Regional Coordination and Financing for the ASEAN Programme on Sustainable Management of Peatland Ecosystems 2014-2020 (APSMPE) & 1st Meeting of the ASEAN Task Force on Peatlands, 17th Meeting of the Technical Working Group (TWG) & Sub-Regional Ministerial Steering Committee on Transboundary Haze Pollution, 18th Meeting of ASOF and Its Related Meeting, Special Senior Officials Meeting of the 36th AMAF & Special Senior Official Meeting of the 14th AMAF+3, 8th Meeting of the Asia Pacific Economic Cooperation Experts Group on Illegal Logging and Associated Trade (APEC-EGILAT), 37th AMAF, 15th AMAF+3 & 4th AIMMAF, 3rd Ministerial Meeting of the Minister Responsible for Forestry (MMRF) and 12th Meeting of the Mangrove for the Future Regional Steering Committee. Last but not least, in order to ensure that officers from FDPM remain competitive and sensitive to various changes in the forestry sector at local and international levels, FDPM will continue to promote her officers to participate in various conferences, courses and workshops related to forestry domestically and internationally. In line with the Department's initiative to strengthen her human capital development, a total of 110 courses have been conducted by FDPM, whilst 34 overseas programmes have been attended by a total of 55 officers throughout 2015.

At this juncture, please allow me to express my sincere thanks and congratulations to the Department's other great achievements throughout 2015, namely retaining 5-star rating for the Department's official website in the Provider-Based Evaluation (ProBe) for four (4) consecutive years since 2011, retaining 4-star rating for the Implementation of Accountability Index (AI) by the Department of National Audit as well as successfully acquired Certification under the new standards of MS ISO/IEC 27001: 2013 for Information Security Management Systems (ISMS) by SIRIM QAS International Sdn. Bhd.

Saya mengambil kesempatan ini menyeru seluruh warga kerja JPSM untuk terus memuhasabah diri, menilai kejayaan atau kelemahan pencapaian di masa lalu dan mengambil iktibar serta pengajaran daripadanya untuk lebih bersiapsiaga bagi maju ke hadapan dan menjadikan JPSM sebagai Agensi Terunggul dalam Pengurusan Hutan Tropika Secara Berkekalan. Pengurusan dan pembangunan khazanah hutan pada masa kini tidak sepertimana 100 tahun dahulu iaitu "Business is No Longer As Usual". Saya amat yakin dengan semangat berkerja yang saya sering war-warkan iaitu "ANDA BOLEH, SAYA BOLEH, KITA BOLEH, JPSM BOLEH.". In sya Allah.

I would like to take this opportunity to request all FDPM's staffs to undertake self assessment, evaluating past achievements or failures and lessons learnt from all these experiences as preparation to move forward and ensuring FDPM materialise her vision as the Agency of Excellence in Sustainable Management of Tropical Forest. Currently, the emphasis of forest management and development is different from the past 100 years, in this case "Business is No Longer As Usual". I am fully confident with the working spirit that I had advocated thus far which says "YOU CAN, I CAN, WE CAN, FDPM CAN". God willing.

Saya dengan ini merakamkan setinggi-tinggi penghargaan kepada semua warga kerja yang terlibat dalam memastikan Laporan Tahunan JPSM 2015 berjaya diterbitkan. Semoga Laporan Tahunan JPSM Tahun 2015 ini dapat dimanfaatkan sebaik-baiknya oleh pelbagai pihak

Finally, I wish to express my sincere appreciation to all the staffs involved in ensuring the successful publication of this FDPM Annual Report 2015. My humble hope that this annual report will be most beneficial to all parties.

Sekian, terima kasih.
Thank you.

Perkara 74(2) Perlembagaan Persekutuan dibaca bersama Senarai II dalam Jadual Kesembilan Perlembagaan Persekutuan memperuntukkan hutan adalah di bawah bidang kuasa negeri. Di bawah peruntukan ini, Badan Perundangan sesuatu Negeri boleh membuat dan menerima pakai sesuatu undang-undang dan peraturan bagi mentadbir dan menguruskan hal-hal perhutanan di dalam negeri berkenaan. Kerajaan Persekutuan hanya memberi nasihat dan bantuan teknikal kepada negeri, penyelenggaraan stesen-stesen percubaan dan demonstrasi, latihan dan penyelidikan.

Berdasarkan kepada Perkara 91(5) Perlembagaan Persekutuan, fungsi Majlis Tanah Negara (MTN) untuk membentuk, dari semasa ke semasa, suatu dasar Negara untuk memajukan dan mengawal penggunaan tanah di seluruh Persekutuan bagi perlombongan, pertanian, perhutanan atau apa-apa maksud lain, dan untuk mentadbir mana-mana undang-undang yang berhubungan dengannya dan Kerajaan-kerajaan Persekutuan dan Negeri hendaklah mengikuti dasar yang dibentuk sedemikian.

II. DASAR DAN PERUNDANGAN

Pada tahun 1977, Dasar Perhutanan Negara (DPN) telah diluluskan oleh MPN dan kemudian disahkan oleh MTN pada 19 April 1978. Dasar tersebut telah dikaji semula pada 10 November 1992 atas kesedaran yang ditunjukkan oleh masyarakat dunia terhadap kepentingan pemeliharaan kepelbagaian biologi dan penggunaan sumber genetik secara berkekalan serta peranan masyarakat dalam pembangunan perhutanan. Penerimaan dasar tersebut merupakan suatu kejayaan memperkukuhkan asas perlembagaan dan mengeratkan kerjasama dan persefahaman di antara Kerajaan Persekutuan dan Kerajaan Negeri dalam pembangunan sektor perhutanan.

I. CONSTITUTIONAL PROVISIONS

Article 74(2) of Federal Constitution related with List II in the Ninth Schedule of Federal Constitution provides that forest is under the jurisdiction of the state. Under this provision, the Legislature of a State may make laws and regulations for the administration and management of forestry matters in the state. Federal Government only provides advice and technical assistance to the states, maintenance of trail stations and demonstration stations, training and research.

According to Article 91(5) of Federal Constitution, the functions of the National Land Council (NLC) to formulate from time to time, a national policy for the promotion and control of the utilisation of land throughout the Federation for mining, agriculture, forestry or any other purpose, and for the administration of any laws relating there to; and the Federal and State Governments shall follow the policy so formulated.

II. POLICY AND LEGISLATIONS

In 1977, the National Forestry Policy (NFP) was approved by the NFC and later endorsed by the NLC on 19 April 1978. This Policy was revised on 10 November 1992 to take cognisance of the concern expressed by the world community on the importance of biological diversity conservation and the sustainable utilisation of genetic resources, as well as the role of local communities in forest development. The acceptance of the Policy is a major breakthrough in strengthening the institutional base and enhances the cooperation and understanding between the Federal and State Governments in the field of forestry sector development.

IMBASAN SEPANJANG TAHUN 2015

YEAR UNDER REVIEW 2015

SUMBER HUTAN

Pada akhir tahun 2015, kawasan berhutan di Semenanjung Malaysia merangkumi 5.78 juta hektar atau 43.9% daripada jumlah keluasan tanah seluas 13.18 juta hektar.

Daripada jumlah ini, seluas 4.83 juta hektar telah diwartakan sebagai Hutan Simpanan Kekal (HSK) di bawah Akta Perhutanan Negara, 1984. Kawasan HSK ini diuruskan di bawah prinsip pengurusan hutan secara berkekalan untuk kepentingan ekonomi, sosial dan alam sekitar.

PENGURUSAN SUMBER HUTAN

Pensijilan Pengurusan Hutan yang dilaksanakan kini lebih menjurus untuk memenuhi tuntutan dan kehendak pasaran pengguna antarabangsa. Penyertaan Jabatan Perhutanan Semenanjung Malaysia (JPSM) dalam pensijilan hutan pula adalah secara sukarela, namun penyertaan JPSM dan semua Jabatan Perhutanan Negeri dalam konteks ini adalah bertujuan untuk menzahirkan komitmen murni terhadap kepentingan pekekalan peranan dan sumbangan sumber hutan negara, terutamanya kawasan-kawasan Hutan Simpanan Kekal (HSK) di bawah amalan Pengurusan Hutan Secara Berkekalan (PHSB) untuk dimanfaatkan oleh generasi masa kini dan masa hadapan.

Kesemua lapan (8) FMU yang terlibat dengan persijilan pengurusan hutan telah menjalani Audit Pensijilan Semula MC&I dan Audit Pemantauan MC&I seperti yang dirancang. Kesemua negeri FMU iaitu Johor, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Selangor dan Terengganu telah berjaya dikekalkan dengan Sijil Pengurusan Hutan oleh Badan Pensijilan Bebas iaitu SIRIM QAS International Sdn. Bhd. dan SGS (Malaysia) Sdn. Bhd.

FOREST RESOURCES

At the end of 2015, forested land accounted for 5.78 million hectares or 43.9% of Peninsular Malaysia's total land area of 13.18 million hectares.

Out of this total, 4.83 million hectares have been gazetted as Permanent Reserved Forests (PRFs) under the National Forestry Act, 1984. These PRFs are managed under the sustainable forest management principles practices for economic, social and environmental benefits.

FOREST RESOURCE MANAGEMENT

The Forest Management Certification currently implemented was more geared towards fulfilling claims and international consumer demand. The participation of Forestry Department Peninsular Malaysia (FDPM) in forest certification is also voluntary, however the participation of FDPM and the State Forestry Departments in this context aimed to enhance its commitments towards the important role and contribution of the country's forest resources, especially the Permanent Reserved Forest (PRF) areas under the Sustainable Forest Management (SFM) practices for the benefits of the current and future generations.

All the eight (8) FMUs involved with the forest management certification has undergone MC&I recertification Audit and MC&I Monitoring Audit as planned. All FMU states, namely Johore, Kedah, Kelantan, Negeri Sembilan, Pahang, Perak, Selangor and Terengganu have successfully retained the Forest Management Certification when audited by Independent Certification Bodies such as SIRIM QAS International Sdn. Bhd. and SGS (Malaysia) Sdn. Bhd.

PENUBUHAN PASUKAN ELIT PENGUATKUASAAN JPSM (JET)

FORMATION OF JPSM ELITE ENFORCEMENT TEAM

Pada tahun 2014, YBhg. Dato' Sri Dr. Hj. Abd. Rahman bin Hj. Abd. Rahim, Ketua Pengarah Perhutanan Semenanjung Malaysia (KPPSM) telah menyarankan supaya penguatkuasaan dilaksanakan secara bersepadu dan merentasi sempadan negeri agar lebih telus dan berkesan. Walaupun perundangan perhutanan di bawah bidang kuasa Kerajaan Negeri, Bahagian Penguatkuasaan Hutan, Ibu Pejabat Jabatan Perhutanan Semenanjung Malaysia (IPJPSM) berkuasa memantau kesalahan-kesalahan hutan yang berlaku dan melaporkan kepada KPPSM dan Pengarah Perhutanan Negeri. Pelbagai kekangan yang dihadapi dalam pelaksanaan operasi penguatkuasaan di peringkat negeri termasuk tekanan dari pihak tertentu menyebabkan kesukaran untuk pasukan negeri mengambil tindakan.

Justeru itu, satu pasukan bertindak khas telah ditubuhkan dalam melaksanakan operasi penguatkuasaan di seluruh Semenanjung Malaysia yang dikenali sebagai Pasukan Elit Penguatkuasaan JPSM atau JPSM Elite Enforcement Team (JET). JET telah dilancarkan secara rasmi pada 17 September 2015 yang dianggotai seramai 25 orang pegawai IPJPSM dan Jabatan Perhutanan Negeri (JPN). JET beroperasi secara berpusat di Bahagian Penguatkuasaan, IPJPSM dan akan digerakkan sekiranya ada aduan, laporan media atau isu-isu penguatkuasaan yang berbangkit.

Sejak ditubuhkan, sebanyak 10 operasi penguatkuasaan telah dijalankan termasuk musim perayaan. Bagi memperkasakan JET segala keperluan dan kelengkapan keselamatan seperti senjata api serta kemudahan aktiviti penguatkuasaan akan ditambahbaik. Selain itu, latihan pengukuhan pasukan, pertahanan diri, penggunaan senjata api, perisikan, serbuan dan tangkapan telah dilaksanakan.

In 2014, YBhg. Dato Seri Dr. Hj. Abd. Rahman bin Hj. Abd. Rahim, Director-General of Forestry Peninsular Malaysia (DGFP) mooted the idea so that enforcement was conducted in an integrated manner transcending inter-state boundaries to ensure transparency and effectiveness. Although forestry legislation falls under the jurisdiction of the State Government, the Forest Enforcement Division of the Forestry Department Peninsular Malaysia Headquarters (FDPMHq) has the authority to monitor occurring forest offences and to submit reports to the DGFP and also the State Forestry Directors. Various restrictions faced in the execution of enforcement operations at the state level included pressures from certain quarters causing immense difficulty for the state enforcement team to take action.

In this regard, a special task force known as JPSM Elite Enforcement Team (JET) was formed to conduct enforcement operations throughout Peninsular Malaysia. JET which comprised 25 officers from FDPMHq and State Forestry Departments (SFD) was officially launched on 17 September 2015. JET operates centrally at the Forest Enforcement Division, FDPMHq and will be mobilised in the event of complaints, media reports or enforcement issues.

Since its inception, a total of 10 enforcement operations had been conducted including during the festivals. To empower JET, all requirements and safety equipment such as firearms as well as facilities related to enforcement activities will also be augmented. In addition, team building, self-defence, handling of firearms, intelligence, raids and arrests were also conducted.

Tugasan pasukan telah berjalan lancar dengan adanya komitmen dan kerjasama erat daripada semua lapisan pegawai JPN di mana anggota dapat melaporkan diri ke tempat pertemuan tanpa masalah dan seterusnya menjalankan operasi di mana-mana negeri yang berkenaan. Keberkesanan penubuhan JET merupakan satu usaha JPSM ke arah membanteras pembalakan haram dan lain-lain kesalahan hutan.

Sejarah Bahagian Penguatkuasaan Hutan, IPJPSM bermula dengan Cawangan Siasatan, IPJPSM pada tahun 1991 secara *ad hoc* dimana ianya bertindak atas aduan dan maklumat awam untuk membuat semakan di lapangan yang melibatkan kesalahan hutan dengan tumpuan khas kepada pembalakan haram yang kerap berlaku pada masa itu.

Pada 1 Mac 1999, Unit Penguatkuasaan Hutan diwujudkan dengan berperanan terhadap aspek-aspek penyiasatan, penguatkuasaan dan perundangan dalam kerja-kerja operasi khususnya dalam pengawalan pengusahasilan hutan. Unit Penguatkuasaan Hutan telah dinaiktaraf kepada Bahagian Penguatkuasaan Hutan (BPK) pada 1 Februari 2009 untuk:

1. Menjalankan pemantauan aktiviti-aktiviti penguatkuasaan hutan di peringkat Wilayah dan JPN;
2. Menjalankan pemantauan kemajuan penyelesaian kes-kes kesalahan hutan di Semenanjung Malaysia;
3. Memberi khidmat nasihat dan bantuan teknikal dalam memperkemaskan aktiviti penguatkuasaan dan penyiasatan di JPN; serta
4. Memantau aktiviti penguatkuasaan termasuklah memberi bantuan kepada negeri-negeri dalam menjalankan siasatan ke atas sindiket kesalahan hutan tertentu dan bekerjasama menjalankan sekatan jalanraya, rondaan, pemantauan udara ke atas kawasan yang cenderung kepada berlakunya kes pencerobohan hutan.

The task of the team had been running smoothly with the commitments and cooperation from SFD officers of all levels, where these officers can report to the centre without difficulty and continue conducting their operations in any concerned states. The effectiveness of the formation of JET is one of the Department's efforts towards combating illegal logging and other forest offences.

The Forest Enforcement Division, FDPMHq started with the Investigation Branch, FDPMHq in 1991 on an ad hoc basis to act on complaints and public information to conduct ground inspections related to forest offences with special focus on illegal logging which were rampant during that period of time.

Subsequently, the Forest Enforcement Unit was formed on 1 March 1999 and being responsible for the aspect of investigation, enforcement and legal issues in forest operations particularly forest harvesting. On February 2009, the Forest Enforcement Unit was upgraded to the Forest Enforcement Division to undertake the following tasks:

1. *To monitor forest enforcement activities at Federal and State levels;*
2. *To monitor the progress of completed investigation of forest offence cases in Peninsular Malaysia;*
3. *To provide advisory services and technical assistance in updating enforcement and investigation activities in the States; and*
4. *To monitor enforcement activities including providing assistance to the states in carrying out investigations on certain syndicated forest offences and cooperation in conducting roadblocks, patrolling, aerial monitoring on areas prone to forest encroachment.*

PENGUNAAN TEKNOLOGI GIS DI JPSM

THE USE OF GIS TECHNOLOGY AT FDPM

Penggunaan teknologi Geographic Information System (GIS) dan teknologi berkaitan iaitu Remote Sensing (RS) dan Global Positioning System (GPS) di Jabatan Perhutanan Semenanjung Malaysia (JPSM) telah bermula sejak penubuhan ASEAN Institute of Forest Management (AIFM) pada tahun 1986, dimana sebahagian besar anggota AIFM terdiri dari pegawai JPSM yang ditempatkan secara pinjaman. Penggunaan teknologi ketika itu lebih menjurus kepada penyelidikan penggunaan GIS dalam kawasan-kawasan kajian khusus. Pendedahan dan latihan kerja yang diterima telah memberi kesedaran akan kepentingan penggunaan ini di JPSM bagi membantu pengurusan hutan.

Penubuhan Pusat Remote Sensing Negara (MACRES) pada tahun 1988 pula telah membolehkan data imej satelit RS digunakan oleh JPSM dalam bentuk cetakan untuk membantu pelaksanaan Inventori Hutan Nasional Ketiga (IHN3: 1990–1993). Data imej satelit bagi kawasan-kawasan tertentu telah dapat memberikan gambaran kawasan hutan yang lebih menyeluruh bagi lokasi yang sukar dimasuki. Latihan penterjemahan / interpretasi imej satelit yang dilaksanakan secara teori dan amali melalui semakan di lapangan oleh pegawai JPSM. IHN3 merupakan titik permulaan penting bagi kegunaan imej satelit sebagai alternatif terbaik menggantikan foto udara yang digunakan semenjak IHN1, disebabkan kosnya yang jauh lebih rendah. Dalam masa yang sama, alat GPS untuk menentukan kedudukan lokasi mula diperkenalkan walaupun ketepatan bacaan kedudukan lokasi dan penggunaannya di kawasan hutan dipertikaikan ketika itu. Walau bagaimanapun ketepatan alat ini telah dipertingkatkan sejak Selective Availability (SA) dihapuskan dan alat penerimaan (receiver) ditambah baik.

Projek kerjasama “Pembangunan Pemetaan dan GIS untuk Perancangan Efektif” dengan Kesatuan Eropah pada tahun 1997 telah mewujudkan Seksyen Pemetaan dan GIS di JPSM.

The use of Geographic Information System (GIS) technology and its related technologies namely Remote Sensing (RS) and Global Positioning System (GPS) at FDPM started since the establishment of the ASEAN Institute of Forest Management (AIFM) in 1986, where most of the staffs at AIFM were on loan from FDPM. The use of technology at that time was more geared towards the use of GIS in specific research areas. Exposure and training received had created awareness on the importance of the use of this application at FDPM in assisting forest management.

The establishment of the Malaysian Centre for Remote Sensing (MACRES) in 1988 had enabled satellite image data of RS to be printed in hard copy and assisting FDPM in the implementation of the National Forest Inventory 3 (NFI3: 1990 -1993). Satellite image data of forest areas in specific locations which were inaccessible were then able to be presented more comprehensively. Theory and practical training on the translation/ interpretation of satellite images were conducted through ground truthing by FDPM's officers. NFI3, the best alternative to replace aerial photos used since NFI1 served as the starting point in the use of satellite images due to its lower cost. At the same time, the GPS device used to determine the positioning of the site was also introduced although its accuracy in positioning and usage in the forest areas was still in dispute then. Meanwhile, the accuracy of the tool had since been upgraded when the Selective Availability (SA) was annulled and the 'receiver' being enhanced.

The collaborative project titled “Mapping and GIS Development for Effective Planning” with the European Union (EU) in 1997 had created the Mapping and GIS Section at FDPM.

Peruntukan projek ini telah digunakan untuk pembelian perkakasan dan perisian GIS dan RS, memberi latihan secara berterusan kepada pegawai JPSM menerusi proses latihan sambil kerja yang dikendalikan oleh pakar RS dan GIS dari EU. Pembangunan pangkalan data perhutanan, pembangunan sistem (Forestry GIS) dan aplikasi (Survey 1) serta mengadakan infrastruktur asas GIS di Jabatan Perhutanan Negeri (JPN) adalah antara output yang berjaya dihasilkan dalam tempoh pelaksanaan projek.

Pada awal tahun 2000, projek ini diteruskan lagi dengan kerjasama German Technical Cooperation (GTZ) yang membolehkan Forestry GIS dijenamakan semula sebagai Sistem Maklumat Geografi Perhutanan (SMGP) dan dinaik taraf dengan mengintegrasikan sistem maklumat yang menyimpan data bukan geospasial (Compartment Register). Di luar projek kerjasama, JPSM telah membangunkan aplikasi Modul Lesen bagi membantu JPN untuk menyediakan peta kawasan lesen pembalakan. Kursus dan latihan GIS mula diadakan secara berkala bagi menjamin kesinambungan pelaksanaan di JPSM dan JPN.

Bagi memantapkan lagi kerjasama dalam bidang RS dan teknologi berkaitan, satu Nota Kerjasama telah dimeterai diantara JPSM dengan MACRES [kini dikenali sebagai Agensi Remote Sensing Malaysia (ARSM)] melibatkan beberapa projek yang membantu Jabatan dalam perancangan, pengurusan dan pemantauan sumber hutan khususnya dalam kawasan Hutan Simpanan Kekal (HSK) di Semenanjung Malaysia. Antara projek yang telah dijalankan ialah sistem pemetaan pokok dan pemetaan litupan kawasan berhutan di Semenanjung Malaysia.

Penstrukturan semula JPSM telah memberikan perubahan nama Seksyen Pemetaan dan GIS kepada Seksyen Geoformatik di bawah Bahagian Pengurusan Maklumat yang melibatkan pertambahan bilangan pegawai. Dengan adanya infrastruktur dan rangkaian talian internet yang stabil, sistem GIS secara web-based mula diperkenalkan dan JPSM telah membangunkan dua (2) sistem iaitu sistem Pangkalan Data Geospasial Perhutanan (PDGP) dan Forest Monitoring Using Remote Sensing (FMRS).

The allocation for this project was used for the purchase of RS and GIS hardware and software as well as continuous work-cum-training of FDPM's officers conducted by RS and GIS experts from the EU. Among the successful outputs during the launching of the project were the development of forestry database, forestry GIS systems (Forestry GIS) and application (Survey 1) as well as providing basic GIS infrastructure to the State Forestry Departments (SFD).

In early 2000, this project was further continued with the collaboration of the German Technical Cooperation (GTZ) that enabled Forestry GIS to be rebranded as Forestry Geographical Information System (FGIS) and upgraded with the integration of information systems that stored non-geospasial data (Compartment Register). For non-collaborative projects, FDPM had developed the application of the License Module to assist SFD in preparing logging license area maps. To ensure continuity in the implementation at FDPM and SPD, courses and training on GIS were held periodically.

To strengthen cooperation in the field of RS, a Note of Cooperation between FDPM and MACRES [now known as the Malaysian Remote Sensing Agency (ARSM)] involving several projects that assisted the Department in planning, management and monitoring of forest resources particularly areas in the Permanent Reserved Forest (PRF) of Peninsular Malaysia was duly sealed. Among the projects that were conducted include tree mapping and forested cover areas mapping systems in Peninsular Malaysia.

The restructuring of FDPM with the Mapping and GIS Section being changed to the Geoformatic Section placed under the Information Management Division involved increase in the number of officers. With the availability of infrastructure and a stable internet line network, the web-based GIS system was introduced. Two (2) systems namely Forestry Geospasial Database System and Forest Monitoring Using Remote Sensing (FMRS) were developed by FDPM.

JPSM antara agensi kerajaan yang terlibat secara aktif dalam aktiviti GIS di peringkat kebangsaan dan menganggotai beberapa jawatankuasa yang ditubuhkan oleh Pusat Infrastruktur Data Geospasial Malaysia (MaCGDI). JPSM dilantik oleh Kementerian Sumber Asli dan Alam Sekitar (NRE) Malaysia sebagai agensi tunjak bagi data kategori tumbuhan.

Selain daripada penggunaan GIS untuk pemetaan dan analisa tindakan di JPSM, ianya juga digabungkan dengan teknologi lain untuk menghasilkan maklumat yang lebih tepat untuk memantapkan data sempadan kawasan HSK, data perubahan litupan kawasan hutan mengikut perubahan masa bagi pengiraan stok karbon, pemantauan aktiviti pembalakan bagi pematuhan pensijilan hutan, pemantauan pembukaan hutan untuk aktiviti pembangunan terutamanya yang bersempadan dengan HSK, analisa kecerunan serta modeling 3D untuk mendapatkan gambaran jelas bagi sesuatu kawasan hutan ketika perancangan sebelum aktiviti dilaksanakan.

Perkembangan positif penggunaan GIS dan teknologi berkaitan di JPSM dan JPN ke arah menjadikan teknologi ini sebagai sebahagian alat (tool) dalam penggunaan kerja seharian adalah selari dengan wawasan JPSM untuk diiktiraf sebagai agensi terunggul dalam pengurusan hutan tropika secara berkekalan

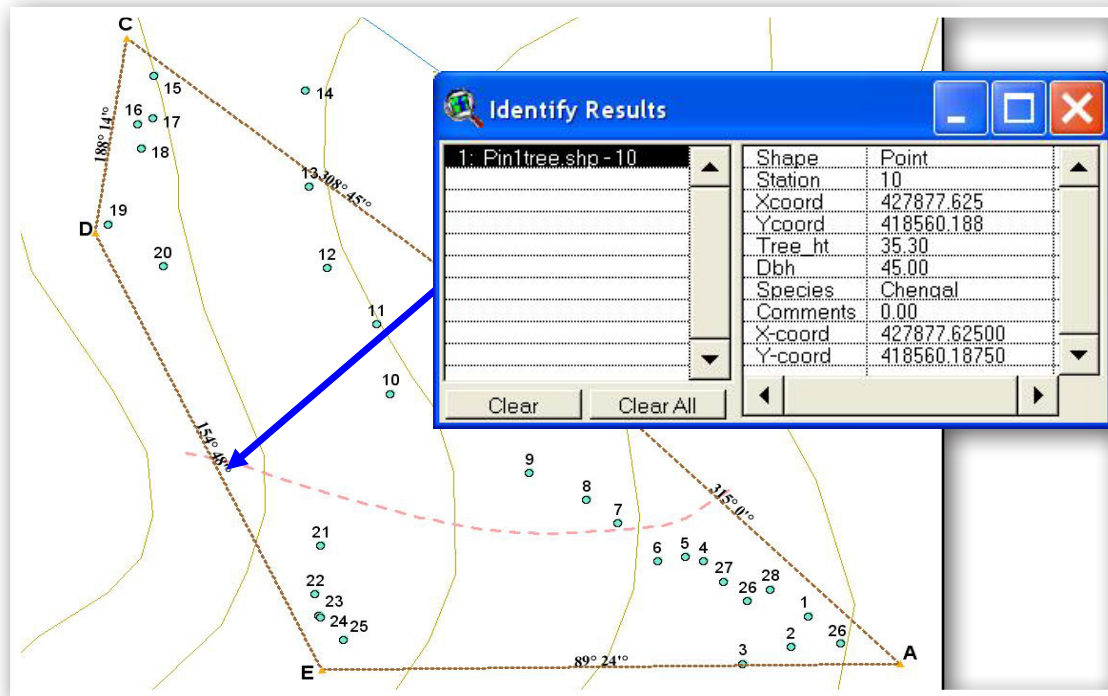

At the national level, FDPM is one of the government agencies that is actively involved in GIS activities and appointed to various committees established by the Malaysian Centre for Geospatial Data Infrastructure (MaCGDI). FDPM is also appointed as the lead agency for vegetation category data by the Ministry of Natural Resources and Environment (NRE) Malaysia.

In addition to GIS application for mapping and overlapping analysis at FDPM, it is also combined with other technologies to produce more accurate information to strengthen boundary data of PRF areas, data on changes in forest cover according to changes in time for the calculation of carbon stock, monitoring of logging activities for forest certification compliance, monitoring the opening of forests for development activities especially those bordering the PRF, gradient analysis and 3D modeling to obtain clearer picture of a particular forest area during planning prior to implementation of activities.

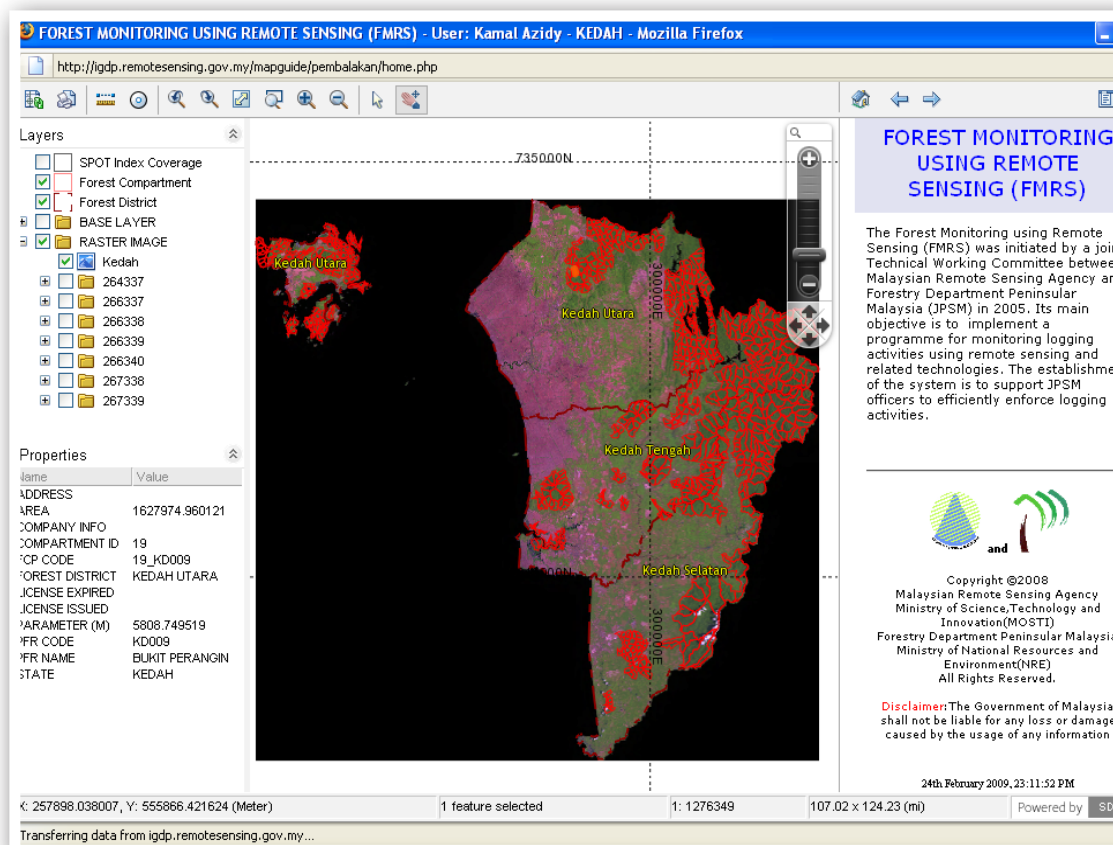

Positive developments in the application of GIS and related technologies at FDPM and SFD towards ensuring this technology being part of daily work tool is in line with FDPM's vision to be the agency of excellence in the sustainable management of tropical forest.

MAJLIS PERASMIAN VIADUCT KORIDOR EKOLOGI CENTRAL FOREST SPINE (CFS) HUTAN SIMPAN AMANJAYA DAN TAPAK PROJEK TROPICAL RAINFOREST LIVING COLLECTION BANUN (TRLC-BANUN)

THE OFFICIAL OPENING CEREMONY OF THE CENTRAL FOREST SPINE (CFS) ECOLOGICAL CORRIDOR VIADUCT, AMANJAYA FOREST RESERVE AND PROJECT SITE OF THE TROPICAL RAINFOREST LIVING COLLECTION BANUN (TRLC-BANUN)

Satu sejarah penting dalam pembangunan Projek Central Forest Spine (CFS) di negeri Perak telah dicatatkan pada 22 September 2015 dengan perasmian Viaduct Koridor Ekologi Central Forest Spine, Hutan Simpan Amanjaya dan tapak projek Tropical Rainforest Living Collection Banun (TRLC-Banun).

Perasmian tersebut disempurnakan oleh DYMM Paduka Seri Sultan Perak Darul Ridzuan, Sultan Nazrin Muizzuddin Shah Ibni Almarhum Sultan Azlan Muhibbuddin Shah Al-Maghfur-lah dan diserikan dengan keberangkatan DYMM Raja Permaisuri Perak, Tuanku Zara Salim. Tetamu kehormat yang turut memberi sokongan terhadap usaha memelihara flora dan fauna adalah YABhg. Tun Abdullah bin Haji Ahmad Badawi; YABhg. Tun Jeanne Abdullah, Pengerusi Tropical Rainforest Conservation and Research Centre; YAB Dato' Seri DiRaja Dr. Zambry bin Abd. Kadir, Menteri Besar Perak; YB Ir Haji Hamim bin Samuri, Timbalan Menteri Sumber Asli dan Alam Sekitar Malaysia (NRE); pengarah serta wakil jabatan dan agensi kerajaan; NGO serta pihak swasta.

Pada majlis tersebut, Resident Representative United Nations Development Programme (UNDP), Michelle Gyles-McDonnough telah menyerahkan Laporan Improving Connectivity in the Central Forest Spine Landscape (IC-CFS) kepada DYMM Paduka Seri Sultan Perak Darul Ridzuan, sebagai simbolik pelancaran pelaksanaan pembangunan IC-CFS bagi negeri Perak, Pahang dan Johor. Turut dirai pada hari tersebut adalah Penyerahan Sijil the Malaysia Book of Records bagi pengiktirafan Longest Multiple Span Composite Bridge Constructed Using Ultra High Performance Concrete (UHPC) yang disampaikan oleh Tan Sri Dato' Danny Ooi kepada Jabatan Pengairan dan Saliran Negeri Perak.

The official opening ceremony of the Central Forest Spine (CFS) Ecological Corridor Viaduct, Amanjaya Forest Reserve and project site of the Tropical Rainforest Living Collection Banun (TRLC-Banun) held on 22 September 2015 marked another important milestone in the development of the CFS Project in the state of Perak.

The ceremony was officiated by HRH Paduka Seri Sultan of Perak Darul Ridzuan, Sultan Nazrin Shah Ibni Almarhum Sultan Azlan Muhibbuddin Shah Al-Maghfur-lah and graced with the arrival of HRH Raja Permaisuri Perak, Tuanku Zara Salim. Honourable guests who supported efforts in conserving the flora and fauna include YABhg. Tun Abdullah bin Haji Ahmad Badawi; YBhg. Tun Jeanne Abdullah, Chairlady of the Tropical Rainforest Conservation and Research Centre; YAB Dato' Seri DiRaja Dr. Zambry bin Abd. Kadir, the Chief Minister of Perak; YB Ir Haji Hamim bin Samuri, Deputy Minister, Ministry of Natural Resources and Environment (NRE) Malaysia; directors and representatives from the government departments and agencies; NGOs and the private sectors.

At the ceremony, Resident Representative of United Nations Development Programme (UNDP) Michelle Gyles-McDonnough submitted the Improving Connectivity in the Central Forest Spine Landscape (IC-CFS) Report as a symbolic launch of the development of IC-CFS in the states of Perak, Pahang and Johor to HRH Paduka Seri Sultan of Perak Darul Ridzuan. On the same day, the Malaysia Book of Records Certificate for being the Longest Multiple Span Composite Bridge Constructed Using Ultra High Performance Concrete (UHPC) was presented by Tan Sri Dato' Danny Ooi to the Department of Irrigation and Drainage of Perak.

Pelengkap majlis perasmian tersebut adalah upacara penanaman pokok di persekitaran viaduct yang terdiri daripada spesies terpilih bertujuan meningkatkan sumber makanan fauna dan kepelbagaian biodiversiti. Antara pokok yang ditanam adalah seperti Resak padi (*Vatica flavida*), Jelutong (*Dyera costulata*), Keruing kertas (*Dipterocarpus chartaceus*), Pelong lichin (*Pentaspadon motleyi*), Tualang (*Koompassia excelsa*) dan Kasai daun besar (*Pometia pinnata*).

Pelaksanaan projek pembinaan Viaduct Koridor Ekologi CFS bermula pada bulan Oktober 2013 dan siap sepenuhnya pada Julai 2015 dengan melibatkan kos sebanyak RM25.8 juta. Projek ini merupakan perintis dalam pelaksanaan CFS di Semenanjung Malaysia. Pemilihan Gerik sebagai kawasan permulaan pembangunan koridor ekologi ini adalah disebabkan kawasan Belum-Temenggor merupakan antara kawasan yang mempunyai populasi hidupan liar yang tinggi seperti gajah, harimau belang dan seladang. Koridor ekologi ini dibina dalam Hutan Simpan Amanjaya, Daerah Hulu Perak iaitu bekas Tanah Kerajaan yang diwartakan pada 9 Mei 2013 dengan keluasan 18,866 hektar menjadi penyambung kompleks Primary Linkages 2 antara Hutan Simpan Temenggor dengan Hutan Simpan Belum. Pembinaan viaduct ini akan memberi impak positif terhadap pengurangan konflik manusia-hidupan liar di samping mampu menjadi daya tarikan baru dalam sektor ekopelancongan di Negeri Perak menerusi aktiviti pemerhatian hidupan liar khususnya gajah.

*Complementary to the official opening ceremony was the planting of selected tree species around the viaduct aimed to increase food resources for the fauna and biological biodiversity. Among the trees planted were Resak padi (*Vatica flavida*), Jelutong (*Dyera costulata*), Keruing kertas (*Dipterocarpus chartaceus*), Pelong lichin (*Pentaspadon motleyi*), Tualang (*Koompassia excelsa*) and Kasai daun besar (*Pometia pinnata*).*

The construction of the CFS Ecological Corridor Viaduct with a cost of RM25.8 million was implemented in October 2013 and fully completed in July 2015. This is a pioneer project in the implementation of CFS in Peninsular Malaysia. Gerik was selected as the initial area for the development of ecological corridors because the area surrounding Belum-Temenggor has high population of wildlife such as elephants, tigers and seladang. This ecological corridor, Primary Linkages 2 connecting Temenggor Forest Reserve and Belum Forest Reserve was built in the Amanjaya Forest Reserve in the district of Hulu Perak, a former State Land covering an area of 18,866 hectares was gazetted on 9 May 2013. The construction of this viaduct would render positive impact on the reduction of human-wildlife conflicts in addition to as new attractions in the ecotourism sector for the state of Perak through the observation of wildlife, especially elephants.

3 mengaku curi balak didenda RM6,000

Tindakan tiga lelaki mencuri balak di Hutan Simpan Pelagat, Besut, membawa padah apabila masing-masing dijatuhi hukuman denda RM6,000 oleh Mahkamah Sesyen di sini, semalam.

Semua tertuduh, Muhamad Faiz Zakaria, 26, Che Sabri Che Hamzah, 34, dan Muhammad Zharfan Zulkipli, 19, berdepan hukuman penjara enam bulan sekiranya gagal menjelaskan denda.

Hakim Wan Nor Zauar Wan Ahmad membuat keputusan itu selepas semua tertuduh yang berasal dari Jerih, Besut, mengaku salah terhadap pertuduhan mengikut Seksyen 68 Enakmen Perhutanan Negara (Penerimaan-Pakai) 1986.

Mengikut pertuduhan, mereka mengaku membawa hasil hutan iaitu bahagian pokok ditebang tanpa memiliki suatu pas pemindahan sah yang dikeluarkan pihak berkuasa negeri.

Mereka mengaku salah melakukan kesalahan itu di koordinat X:495992 Y: 609094 berhampiran dengan sempadan luar Hutan Simpan Pelagat, Besut, pada jam 5.20 pagi pada 5 April lalu.

SUSULAN BH BONGKAR PEMBALAKAN HARAM

Dron pantau pembalakan di lima zon

» Rakam imej di kawasan kecil, awasi aktiviti Renjer Hutan

Oleh Jalal Ali Abdul Rahim

■ Ipoh

Jabatan Perhutanan Perak akan menggunakan dron atau pesawat udara kawalan jauh tanpa jurutbang untuk memantau dan membuat rakam imej kawasan balak dari udara.

Pengarahnya, Datuk Roslan Ariffin, berkata penggunaan dron

membolehkan banyak imej dilihat dan dirakamkan dari udara ketika Renjer Hutan membuat pemantauan lapangan di kawasan hutan serta konsesi balak.

Katanya, penggunaannya memudahkan pengesanan sebarang aktiviti pembalakan haram atau kesalahan hutan yang dilakukan pelsen balak seperti menebang pokok di luar sempadan konsesi.

"Mengikut perancangan, kami mahu menggunakan dron di setiap lima zon pengawasan hutan di negeri ini bagi memudahkan pemantauan di kawasan hutan.

Guna khidmat pakar

"Kami akan menggunakan khidmat syarikat atau pihak yang ada kepakaran mengendalikan dron bagi melakukan tugas itu bagi kawasan kecil, manakala pemanta-

uan menyeluruh melalui udara membabitkan kawasan yang luas menggunakan helikopter," katanya ketika dihubungi BH, semalam.

Lima zon pemantauan hutan di negeri itu ialah Hulu Perak, Larut Matang, Kuala Kangsar, Kinta-Manjung dan Perak Selatan.

Roslan berkata, sebelum ini pihaknya ada menggunakan helikopter untuk memantau kawasan hutan di Perak, namun penggunaannya mengikut keperluan kerana peruntukan disediakan hanya RM300,000 setahun.

Semalam, BH melaporkan Jabatan Perhutanan Perak mengambil tindakan drastik menubuhkan 30 kakitangannya membabitkan Renjer Hutan, Pengawas Hutan dan pekerja am yang membantu tugas Renjer dan Pengawas Hutan di seluruh Perak berkuat kuasa esok, bagi meningkatkan aspek pengurusan dan penguatkuasaan, terutama ke atas kegiatan pembalakan haram.

Difahamkan, tindakan drastik itu yang sebahagian besar membabitkan kakitangan Pejabat Perhutanan di daerah Hulu Perak, berkait rapat dengan pembongkaran hasil Operasi Bersenjata di kawasan hutan di daerah Hulu Perak.

Keratan akhbar BH, semalam.

Operasi berkenaan tertumpu kepada kegiatan mencuri balak dan penipuan bayaran ses serta royalti balak kepada jabatan itu yang menyebabkan ketirisan hasil Kerajaan Perak.

Siasatan dalaman
Sementara itu, Roslan berkata, jabatan berkenaan melakukan siasatan dalaman terhadap kakitangannya kerana cuit dan tidak mengikut Prosedur Operasi Standard (SOP).

"Kami tidak akan melindungi mana-mana kakitangan jika mereka didapati cuit atau tidak mematuhi SOP. Mereka yang berkenaan akan diurus ke Lembaga Tatatertib jabatan dan akan dikenakan tindakan tertentu.

"Sebelum ini, ada kakitangan yang dikenakan tindakan turun tiga kali tangga gaji atas kesalahan seperti itu. SPRM juga membuat siasatan mereka sendiri dan itu saya tidak boleh sentuh," katanya.

100 forestry officers and researchers in Bukit Nanas expedition

THE Peninsular Malaysia Forestry Department (JPSM) held a three-day scientific expedition in Bukit Nanas Forest Reserve recently.

Launched by its director-general Datuk Dr Abd Rahman Abd Rahim, the expedition involved 100 JPSM officers and researchers from Universiti Putra Malaysia's Forestry Department.

The participants conducted studies on the aspects of forest ecosystems, biodiversity of flora and fauna, ecology eco-tourism, recreation, geology, archaeology and socio-economic development.

"Being the only forest reserve in the middle of the city, Bukit Nanas Forest Eco Park, formerly known as Bukit Nanas Forest Reserve is a strategic location for the expedition," said Dr Abd Rahman.

Abd Rahman (right) speaking to participants of the expedition at the new Canopy Walk which was built to give visitors the experience of tracing the plants in the 300m walk.

"Itu adalah tugas agensi keselamatan yang berkaitan untuk menjaga sempadan negara, kalau tidak mampu (melaksanakan tugas), beri kami senjata, biar kami pula jaga sempadan negara," katanya ketika dihubungi BH semalam.

Sebelum ini, Pengarah Jabatan Perhutanan Perlis, Ridwan Salleh, dipetik sebagai berkata, pihaknya akan menjalankan siasatan dalaman ke atas renjer Taman Negeri Perlis berhubung dakwaan mereka mungkin terlibat dalam kes pemerdagangan manusia yang berlaku di Bukit Wang Burma baru-baru ini.

Abd Rahman menegaskan, sehingga kini pihaknya tidak menerima sebarang laporan yang mengaitkan pembalakan renjer hutan dengan kegiatan pemerdagangan manusia terutama di lokasi sekitar Taman Negeri Perlis.

"Terdapat 27 penguat kuasa dan renjer hutan yang bertugas di Taman Negeri Perlis yang, berdasarkan kira-kira lima hektar, kawasan kem haram dan kubur yang ditemui itu berada dalam kawasan keselamatan di bawah

bidang kuasa agensi keselamatan negara. Jadi, bagaimana pendatang ini boleh lolos?

Ambil tindakan

"Secandanya benar ada pembalakan renjer hutan, saya tidak akan truska kepada untuk mengambil tindakan terhadap mereka, kita juga akan beri kerjasama kepada polis dalam menjalankan siasatan berhubung isu ini," katanya.

Hellau menegaskan, pihaknya tidak mahu tuduhan tidak berasas dilemparkan kepada kakitangan Jabatan Perhutanan tanpa siasatan rapi dilakukan.

Tuduhan seumpama ini pastinya menjejaskan moral mereka, elok siasat dulu, kalau benar memang berlaku kegiatan seperti dakwa, tangkap mereka," katanya.

Sebelum ini, Menteri di Jabatan Perdana Menteri, Datuk Seri Shaidan Kassim, mempersoalkan peranan Jabatan Perhutanan Perlis terutama renjer hutan yang dianggap longgar sehingga memberi ruang kepada kewujudan kem haram di Taman Negeri Perlis.

Selain itu, Menteri Dalam Negeri, Datuk Seri Dr Ahmad Zahid Hamidi, pula tidak menolak kemungkinan pembalakan seperti penguat kuasa dalam kes itu, malah menegaskan Jabatan Perhutanan sepatutnya memantau dan mengawal sempadan hutan berkenaan.

Swamp recovers from peat fires

Private-public partnership helps Kuala Selangor forest reserve to make glorious comeback

THE Raja Musa Forest Reserve in Kuala Selangor has rebounded from last year's peat fires and now serves as an example of peat swamp conservation.

It has become a shining example of how private-public partnership and engagement can help rehabilitate an important carbon sink in the state.

As part of Selangor's World Environment Day 2015 celebrations, European Union ambassadors, led by delegation head Luc Vandenberghe and comprising ambassadors from six EU nations to Malaysia, visited the Raja Musa reserve.

Officers from the Selangor government, state Forestry Department and over 100 volunteers from HSB, Smith Neghewas and UCSI University also took part in the celebration, which saw more than 800 tree saplings being planted covering one hectare of degraded peatland.

The Raja Musa reserve is part of the North Selangor Peat Swamp Forest, measuring a total of 81,304ha, divided into several zones such as water catchment, agro- and community forestry, and even a recreation/education zone.

According to state Forestry director Dr Mohd Puat Dahalan, peat swamp forests or hutan gambut cover over a third of Selangor's permanent forest reserves, and are important for their ecological functions.

"These include flood regulation and preventing saline water from intruding. They are also important in maintaining the area's biological diversity and acting as carbon sinks," said Dr Mohd Puat.

Previously, he added, the peat swamp had suffered degradation due to recurring peat fires, as well as illegal encroachment by outsiders who cleared the forest to plant oil palm.

"However, after we established

water breaks and cleared off the illegal plantations, the water table has been slowly returning," Dr Mohd Puat explained, pointing to the high water levels inside the water breaks, which were dug to prevent fires from spreading.

NGO Global Environment Centre (GEC) has also been prolific in planting saplings, mainly pioneer species such as Mahang and Tenggek Burung.

GEC director Faizal Parah explained to the visitors the importance of peat swamps in acting as carbon sinks, as carbon is drawn out of the ecosystem and converted into peat soil.

Holding up a bladderwort or pokok tangki he picked from the black peat water, Faizal explained that the carnivorous water plant was a good indicator of the swamp's health.

"If the water was polluted, you would not have the plants growing in here," said the NGO director.

Both Dr Mohd Puat and Parah explained that the Mahang (Macaranga) and Tenggek Burung (Euphorbia) trees were used to stabilise the degraded peat swamp first.

"After that, we move in with other primary species such as Ramin Melawis (Gonylias binamus) once the pioneer species have fulfilled their purpose," said Parah.

The visitors were also brought to visit nearby Kampung Raja Musa, where the villagers were also involved in the forest's rehabilitation, and were running a nursery growing the saplings for future use.

"We run it on a community basis, because we also have our own job. We also control the number of saplings grown, so that we don't waste them," said village committee member Sunaryo Suraji.

Vandenberghe, speaking on behalf of the delegation, said it was a refreshing and exhilarating activity to help the peat swamp recover.

"Although we hold regular dialogues and policy talks on environmental issues, it is great to be walking the talk and actually going out there to be doing something positive," he added.

3 Faizal (left) holding peat-acidic and partly decomposed plant matter as he explains to the gathered EU ambassadors and volunteers about its importance.

4 This plant, a bladderwort, in GEC director Faizal Parah's fingers, may not look like much, but it's an important indicator of the Raja Musa swamp's water cleanliness, as the plant would otherwise not thrive in the acidic peat waters.

Guna drone pantau penerokaan haram di Cameron Highlands

CAMERON HIGHLANDS 8 Mac - Pesawat tanpa pemandu (UAV) atau drone akan digunakan untuk memantau aktiviti penerokaan tanah haram di Cameron Highlands.

Menteri Sumber Asli dan Alam Sekitar, Datuk Seri G. Palanivel berkata, pemantauan menggunakan drone akan dilakukan dengan kerjasama Kementerian dan Jabatan Urur dan Pemetaan Malaysia (Jupem).

Kata beliau, drone yang digunakan dilengkapi dengan teknologi canggih yang mampu merakamkan gambar dalam resolusi tinggi dan berkualiti untuk tujuan tinjauan sehingga ke kawasan pedalaman.

"Drone ini akan digunakan untuk melakukan tinjauan udara setiap hari di Cameron Highlands mulai hari ini dan merakamkan seluruh kawasan tanah tinggi di sini termasuk di pedalaman.

"Malamat yang diperoleh akan memudahkan pihak berkuasa mengambil tindakan jika sesuatu

kawasan telah diterokai secara haram. Saya harap penggunaan drone ini mampu mengatasi aktiviti penerokaan tanah haram di sini," katanya dalam sidang akhbar semasa melancarkan Program Penghijauan Cameron Highlands Sini Kedua di sini hari ini.

Program tersebut disertai pelbagai agensi kerajaan dan pertubuhan bukan kerajaan (NGO) serta pelajar sekolah dari sekitar Cameron Highlands.

Sebanyak 3,000 pokok ditanam sempena program tersebut di satu kawasan seluas tiga hektar di Kompartmen 5, Hutan Simpang Gunung Sikau yang sebelum ini diterokai secara haram untuk aktiviti pertanian.

Dalam program tersebut, satu demonstrasi tinjauan udara oleh drone diadakan syarikat penyediaan perkhidmatan UAV iaitu Aerodyne Geospatial Sdn. Bhd. oleh Pengarah Eksekutifnya, Kamarul A. Muhammad.

Jumlah kes pembalakan haram turun

IpoH: Kutipan kompaun kesalahan hutan yang dilakukan pihak tidak bertanggungjawab di Perak sepanjang tahun lalu meningkat berbanding dua tahun sebelumnya, kata Menteri Besar, Datuk Seri Dr Zambry Abd Kadir.

Beliau berkata, sebanyak RM529,400 kompaun dikutip sepanjang tahun lalu berbanding hanya RM282,448 pada tahun 2013 dan RM390,420 pada tahun 2012.

Bagaimanapun katanya, jumlah kes kesalahan hutan yang dicatatkan khususnya membabitkan aktiviti pembalakan haram dilaporkan menurun.

"Daripada aktiviti penguatkuasaan yang dijalankan, kes kesalahan hutan menurun iaitu 60 kes dilaporkan pada tahun 2012, diikuti 45 kes pada 2013 manakala untuk tahun lalu pula hanya 40 kes," katanya menjawab soalan lisan dikemukakan Wong May Ing (DAP-Pantai Remis).

Jamin Hutan Simpan terpelihara

Zambry berkata, ia kesan pelbagai usaha dan kerjasama dilakukan kerajaan negeri melalui Jabatan Perhutanan negeri dan Jabatan Perhutanan Semenanjung Malaysia (JPSM) bagi melaksanakan pelbagai prosedur untuk menjamin hutan simpan dan hutan kekal di negeri itu terus terpelihara.

Katanya, Jabatan Perhutanan negeri dan JPSM turut mengawal aktiviti pembalakan dengan melakukan pemantauan hutan menggunakan helikopter, penguatkuasaan secara bersepadu dan bekerjasama dengan pelbagai agensi kerajaan seperti pejabat daerah dan pihak polis.

CURI BALAK HUTAN SIMPAN RASAU

Dalang kegiatan dikenali pasti

» Sindiket terbongkar rampas empat jentera

Dungun

Jabatan Perhutanan Negeri Terengganu (JPNT) sudah mengenalpasti suspek yang dipercayai mendalangi kegiatan mencuri kayu bermutu tinggi di kawasan Hutan Simpan Rasau dekat sini.

Pengarah JPNT, Azmi Nor, berkata suspek yang juga rakyat tempatan itu dipercayai sudah lama menjalankan

kegiatan berkenaan dan yakin dapat memahaminya dalam masa terdekat.

Dalam satu operasi, kelmarin, JPNT berjaya membongkar sindiket mencuri balak itu dan merampas empat jentera yang digunakan untuk tujuan pembalakan dianggarkan bernilai RM150,000.

Operasi itu dilakukan 12 kakitangan penguat kuasa JPNT dengan dibantu empat anggota Renjer Daerah Dungun serta 12 anggota Batalion 9

Pasukan Gerak Am (PGA) Gong Badak selepas mengintip lokasi berkenaan sejak Sabtu lalu.

"Kayu balak yang sudah ditebang itu dianggarkan bernilai kira-kira RM50,000," katanya kepada BH semalam.

Beliau berkata, semua jentera yang dirampas dibawa keluar dari kawasan pembalakan haram itu menggunakan treler panjang ke ibu pejabat untuk siasatan lanjut.

Harga maklumat penduduk

Azmi mengucapkan terima kasih dan menghargai maklumat daripada penduduk kampung yang membawa kepada kejayaan membongkar kegiatan pembalakan haram itu.

Wartawan BH yang turut menyertai operasi itu, terpaksa meredah jalan sempit yang berliku sejauh kira-kira 10 kilometer dari Jalan Utama Rasau ke Kerteh dengan mengambil masa selama 40 minit untuk sampai ke lokasi terbit.

Bagaimanapun, intipatan dan

risikan sepanjang dua hari untuk memerangkap penjenayah lain sekitar itu menemui jalan buntu.

Mereka dikatakan tidak muncul di kawasan itu dipercayai selepas mendapat maklumat daripada tontol yang menjaga kawasan berkenaan.

Pasukan penguat kuasa JPNT menemui lebih daripada lima lokasi kawasan hutan simpan meliputi kawasan seluas 20 hektar yang digondol sindiket itu untuk membawa keluar kayu bermutu tinggi sejak beberapa bulan lalu.

Tinjauan di kawasan itu mendapati masih banyak kayu yang siap dipotong yang belum diangkut keluar selain penemuan pakaian dan kasut milik anggota sindiket balak yang djemur di atas pokok renek.

Sindiket mencuri balak dari kawasan Hutan Simpan Iban, dekat sini, dikesan menggunakan treler pengangkut untuk membawa jentera berat yang kelihatan seperti rosak bagi mengelak

dikesan pihak berkuasa.

Taktik itu bagaimanapun terbongkar apabila sebuah treler membawa jentera terbabit ditahan oleh Jabatan Perhutanan Perak di Simpang Bahau di sini minggu lalu.

Taktik terbaharu

Pegawai Pejabat Perhutanan daerah, Nazri Husin berkata, sindiket meletakkan jentera berat atas treler pengangkut itu seolah-olah ia rosak atau mahu dibawa ke lokasi lain.

"Ini taktik terbaharu digunakan mereka bagi mengelirukan pihak berkuasa. Namun, atas maklumat awam dan risikan, kami berjaya mengesan dan menahan treler panjang ber-

kenaan selepas mengkeranya 20 kilometer," katanya.

Nazri berkata, pemeriksaan terhadap treler itu menemui 14 batang kayu jenis merbau dan meranti tanpa permit sah, dianggarkan bernilai RM10,000.

"Pemandu treler pengangkut itu ditahan dan soal siasat kemudian membawa kepada penemuan lokasi yang dipercayai menjadi tempat pengumpulan pelbagai jenis kayu sebelum dipindahkan untuk dijual."

"Sebarang simbilan lagi batang kayu jenis merbau ditemui di kawasan hutan simpan itu yang sedia untuk dipindahkan," katanya.

PHD rampas 29 meranti, merbau curi

Raub: Tindakan menyorok 29 balak spesies meranti dan merbau bernilai lebih RM50,000 yang curi dalam Hutan Simpan Kelau di sini, dikesan anggota Unit Penguat Kuasa Pejabat Hutan Daerah (PHD) Raub, kira-kira jam 1 tergitah hari kelmarin.

Pemeriksaan mendapati balak berkenaan dibawa menyeberangi Sungai Bilit dekat sini, menggunakan pengkut sebelum dilonggok dalam kawasan ladang sawit di FELDA Lurah Bilit, Bentong yang terletak bersebelahan Hutan Simpan Kelau.

Pegawai Hutan Daerah Raub, Mohd Shukri Mohd Ali, berkata selepas mendapat maklumat, lima anggota Unit Penguat Kuasa PHD Raub diarah ke kawasan sawit dan menemui 29 batang kayu balak dalam ladang sawit di FELDA Lurah Bilit.

"Balak curi itu dipercayai didalangi oleh enam individu menunggui masa untuk dipindahkan menggunakan Lori. Bagi mengelak kegiatan mereka dikesan penduduk setempat, penjenayah menumpu engkut berwana hijau itu dengan pelepas sawi."
